

## **UP Tower Easytherm 3.5T Special**

TM Induction Heating proudly introduces the new  
**UP TOWER 3.5 Special**

By utilizing a specially wrapped internal induction coil & custom sizing, this heater can effectively boost the heating performance while still utilizing 120V/16A incoming power. The Up Tower 3.5T will greatly reduce heating time, add greater flexibility, and ensure optimal protection due to the heavy-duty tool case.

Tool Box Case Nominal dimensions = 22x14x13 inches  
Total weight = 95.0 lbs.

Heating Performance = 20min for 320x150x70mm Bearing in Picture

**TECHNICAL SPECIFICATIONS:**

**Electricity**

Power Rating: 2.0kVA / 16A  
Voltage / current: 120VAC  
Frequency: 50-60 Hz

**Work Piece**

Max. Weight  
Bearings: 70 Kg  
Other parts: 70 Kg  
Width of Gap: 180 mm  
Height of Gap: 95 mm  
Steady Rest supplied for overhung loads

**Controls**

Power regulation Yes 0-100% Automatic  
Temperature control: Yes (0-240°C)  
Time control: Yes (0-99 min.)

**Standard Yokes Included:**

Yoke Dimensions: 50x50x280mm (70mm min bore)

**Digital Display**

Temperature C or F yes  
Time: yes  
Error Report: yes

**Others**

Sound Signal: yes  
Temperature hold: yes  
Auto-Demagnetizing < 2 A/cm: yes  
Magnetic Temperature Probe: yes

**Warranty:** 12 months

**Price Midpoint Bearing Special**

**\$ 4,250.00**

**Delivery:**

**Special Order  
FOB Denver**
